

February 14, 1952

Dear Westergaard:

Greetings! I just happened to receive proof on the C.S.H. symposium, and was thus reminded of your discussion. I enclose a progress-report just written which summarizes some of our very recent work precisely on the subject of sexual compatibility. The whole thing is rather remarkable, but the experiments are very clear cut. Cavalli and I are collaborating on it at long range.

With best regards from Esther and myself,

Sincerely,

Joshua Lederberg
